Opis

Signal surge protector - an ideal device for everyone who cares for their TV and satellite equipment: multiswitch, satellite receiver, television, stereo - the best precautionary measure against thunderstorms that can happen not only in the summer, but also in the fall and springtime. The device can be operated in the whole TV/SAT frequency range. It can take over surges up to 8000 A.
• Lightning protection of TV and SAT TV devices
• Pass band: 5-2400 MHz
• Insertion loss not higher than 1.5 dB
• Maximum current (8/20 µs): 8 kA
• Screening efficiency: A class
